

## Customer Partnerships

Melitron operates as a seamless extension of our customers' operations with their manufacturing competitiveness as our foremost concern. We strive to understand their objectives, overcome their challenges, and work with them to explore new opportunities that result in our mutual success in the global marketplace.

## Manufacturing Excellence

Melitron strives for excellence in our products and service by relentlessly pursuing continuous improvement process management. Ongoing investment in the most advanced manufacturing technologies will continue to improve production efficiencies, reduce costs and help our customers achieve superior manufacturing advantages.

## Employee Participation

The Melitron Team participates in a culture where ideas are shared, initiative is encouraged, and performance is rewarded. We provide a safe and healthy work environment where employees are valued, and challenged to put forth their best efforts.

## Innovation

Melitron nurtures innovation. We align ourselves with the strongest associates and integrate the most advanced manufacturing technologies available to provide our customers with an end to end solution. Our technical expertise allows optimization of product designs to achieve enhanced manufacturability in the pursuit of reducing manufacturing costs while accelerating time to market.

## Quality Policy

To provide world-class manufacturing solutions by promoting a dynamic work environment that fosters innovation, flexibility and accuracy.
