Melitron Receives 2010 Supplier Award for Achievements in Performance

Guelph, ON - Melitron Corporation, a leading precision metal enclosures manufacturing company, today announced that its Guelph operations has been awarded the 2010 Supplier Award for its excellence in Quality and Delivery from a customer in the aerospace industry. This represents the second successive year Melitron has achieved this award.

This Supplier Award recognizes companies that are successful and proactive at consistently achieving both Quality and Delivery excellence in the manufacture of precision metal products.

“This is a good demonstration of Melitron’s commitment and contribution to quality processes while upholding manufacturing and delivery results,” said Mike Turner, Melitron Vice President, and General Manager. “Melitron is truly honored to receive this award and we look forward to achieving new levels of success in the future”

About Melitron

Headquartered in Guelph, Canada, Melitron Corporation is a full service contract manufacturer of precision metal components, electronic chassis, industrial enclosures, frames/racks and self-service kiosks. Melitron specializes in providing flexible manufacturing solutions to OEMs competing in global technology markets including; aerospace, computing, datacom, energy/power, industrial, medical, and security and self-service. An integrated business model provides customers with a single source manufacturing solution encompassing design, fabrication, finishing, assembly and distribution.

Melitron’s world class facilities are equipped with latest in advanced manufacturing technologies and automated systems; enhancing efficiencies, reducing costs and delivering our customers competitive manufacturing solutions. Melitron has two manufacturing facilities in Canada and a sales center in the United States. For more information, visit www.melitron.com.
