Melitron Receives 2011 Supplier Award for Achievements in Performance

Guelph, ON - Melitron Corporation, a leading precision metal enclosures manufacturing company, today announced that its Guelph operations has once again been awarded a Supplier Award for its excellence in Quality and Delivery performance from a customer in the aerospace industry.   This represents the third successive year Melitron has achieved this award.

This Supplier Award recognizes companies that are successful and proactive at consistently achieving both Quality and Delivery performance in their manufacturing.

"Maintaining this award for three consecutive years supports Melitron's commitment to assuring the highest level of customer satisfaction. It also confirms the strength of our manufacturing team in consistently delivering our customers top quality products and services on-time.", said Mike Turner, Melitron President and CEO.

About Melitron
Headquartered in Guelph, Canada, Melitron Corporation is a full service contract manufacturer of precision metal components, electronic chassis, industrial enclosures, frames/racks and self-service kiosks. Melitron specializes in providing flexible manufacturing solutions to OEMs competing in global technology markets including; aerospace, computing, datacom, energy/power, industrial, medical, and security and self-service. An integrated business model provides customers with a single source manufacturing solution encompassing design, fabrication, finishing, assembly and distribution.

Melitron's world class facilities are equipped with latest in advanced manufacturing technologies and automated systems; enhancing efficiencies, reducing costs and delivering our customers competitive manufacturing solutions. Melitron has two manufacturing facilities in Canada and a sales center in the United States. For more information, visit www.melitron.com.
